Mark Samuel, Executive Director

GOAL- \$22,000

- 2 copier/fax/printers. Children receive homework help. The copiers are used extensively for homework pages, school projects information, etc.
- 2 wireless Internet computer systems. Few children have computers at home. They are used for homework, and job searches.
- HD Video Camera. Neighborhood Ministries train teens in digital video production. This camera is used for providing media for various events including the ABC Ohio annual gathering and documenting the stories of people whose lives have been changed because of Neighborhood Ministries.
- Tables and Chairs. A volunteer has been repairing tables and chairs but they are reaching the point where they can no longer be fixed. These are used daily and constantly from everything from art projects to homework to meals.
- Room facelifts. Every 2-3 years the center needs repainted because of the heavy use received. Volunteers do the painting, but paint and supplies need purchased to keep rooms looking fresh and attractive.

SONG

Tune: God Will Take Care of You

State project time is here again
It's Neighborhood Ministries

They need to update, upgrade, and paint
To help keep their ministry great

We can provide the funds
To help them achieve and meet all their needs

Let's help support the work
Of Neighborhood Ministries
